

Compliance Statements

RoHS Compliance

Products that are manufactured to comply with “RoHS” will be labeled as RoHS product and will comply with the European Union’s ROHS Directive, 2002-95-EC. Any product not labeled as ROHS may contain lead and/or other materials in excess of the ROHS directive.

Our suppliers provide certification of RoHS compliance as necessary. We use their certification and our manufacturing processes to certify the finished product is RoHS compliant.

REACH Compliance declaration

Registration, Evaluation, Authorization and Restriction of Chemicals (**REACH**) is a European Union regulation dated 18 December 2006. **REACH** addresses the production and use of chemical substances, and their potential impacts on both human health and the environment. We can provide Reach Compliance declarations for your products upon request.

Our suppliers provide certification of **REACH** compliance as necessary. We use their certification and our manufacturing processes to certify the finished product is **REACH** compliant.

CONFLICT MINERALS Statement

Under the Dodd-Frank Wall Street Reform Act, which was finalized in July 2010, publicly traded companies whose products contain metals derived from minerals defined as conflict minerals, which include tantalum, tin, tungsten, and gold, are required to report annually to the Securities and Exchange Commission (SEC). The new reporting requirements are based on concerns that revenues obtained from mining and transport of conflict minerals finance the ongoing conflict in the Democratic Republic of Congo (DRC) and surrounding countries and the resulting humanitarian crisis.

Since MCX Inc. is a contract manufacturer of OEM designed cable assemblies and wiring harnesses, it doesn't design nor develop any unique products.

- MCX, Inc. commits to support their customers in their need to comply with the Conflict Materials portion of the Dodd-Frank Wall Street Reform ACT.
- MCX, Inc. will work with our vendors in procuring the most current information on their material status for our customers.

Factory:

2811 Broadmore St., Suite 301

(CONFLICT MINERALS Statement, cont'd)

- MCX, Inc. will source the manufacture specified on the customer's Bill of Material.
- On the rare occasion that a customer allows MCX, Inc. to pick a vendor, they will source from socially responsible suppliers. MCX, Inc. is committed to sourcing products from businesses that respect, protect and support human rights throughout the world.

California Proposition 65 Warning

The following information is required by the State of California's Safe Drinking Water and Toxic Enforcement Act of 1986, which is called Proposition 65. This California regulation does not address safe levels for most chemicals so even trace amounts of the chemicals included on the list must be noted with the "Safe Harbor" wording. An assembly that has been certified as RoHS, or REACH compliant may still have trace amounts of chemicals that fall under Proposition 65 regulations.

Therefore, we provide the following warning:

Warning: This product contains lead and/or other chemicals known to the State of California to cause cancer and/or birth defects and/or other reproductive harm.

AS9100D(2016) Certification

AS9100 was first published in 1999 by the Society of Automotive Engineers and the European Association of Aerospace Industries. AS9100 fully incorporates the entirety of the current version of ISO 9001, while adding requirements relating to quality and safety.

MCX, Inc. has been certified by Orion Registrars to the AS9100D(2016) standard since April of 2020 and maintains a copy of the certification, available upon request.
